

MINOR IN ENTREPRENEURIAL BUSINESS (AVAILABLE TO BSM'S AND NON-BSM'S)

Overview

Training in entrepreneurship is now viewed as an integral component of a contemporary undergraduate business curriculum and critical for the professional development of undergraduate students within and beyond the walls of business schools. To further develop the entrepreneurial mindset and skillset of undergraduates, Tulane University offers a new minor in "Entrepreneurial Business" housed in the A.B. Freeman School of Business. All NTC students are eligible to pursue this minor. There is a "BSM-track" and a "Non-BSM track."

Requirements

The courses for the minor are designed and intended to be taken in sequential order. In other words, students would ideally first take the courses in the core requirements section, followed by the three elective courses, followed by the experiential learning component.

Course ID	Title	Credits
Course Requirements for BSM Students		
Core Requirement(s)		3
MGMT 3200	Fundamentals in Entrepreneurship	
or MGMT 4140	Fundamentals in Entrepreneurship
