

FINANCE MAJOR, BSM

A major in finance introduces students to financial markets, investments and financial analysis. Students gain a comprehensive foundation in finance through core classes on valuation, accounting, investments and fixed income analysis. Special experiential learning opportunities include producing an analyst's report in Burkenroad Reports, investing real funds in the Darwin Fenner Student Managed Fund (by invitation only), or exploring alternative investments including hedge funds and distressed debt in the Aaron Selber Courses.

Electives allow students to tailor their education to their career goals through optional tracks in corporate finance and investments.

Requirements Curriculum

Course ID	Title	Credits
Required Non-Business Courses
