

# BUSINESS ADMINISTRATION

---

The Freeman School MBA program aims to provide graduates with the knowledge, skills, and leadership abilities to become more effective leaders in today's dynamic business environment. The curriculum offers opportunities to specialize in areas such as analytics, finance, strategy, marketing, or energy, while also fostering a broad understanding of business disciplines essential for effective cross-functional management.

Today's business leaders need more than just technical know-how; they require a strong foundation in critical thinking and the ability to lead with creativity and adaptability. The Freeman School provides this foundation through an interdisciplinary approach that mirrors the complexity of the modern business world and prepares graduates to tackle real-world challenges.

At Tulane, students may earn the MBA through one of four options: Executive MBA, Full-Time MBA, Online MBA, or Professional MBA.

## Programs Graduate

- Business Administration, Executive MBA (<https://catalog.tulane.edu/business/mba/business-executive-mba/>)
