

# ANATOMY - GRADUATE (ANAT)

---

**ANAT 6010 Histology (5)****ANAT 6090 Gross Anatomy/Embryology (11)****ANAT 7055 Graduate Histology (5)**

To acquire knowledge and develop skills in microscopic anatomy and its application and relevance to human physiology, biochemical function and Disease

**ANAT 7065 Graduate Anatomy (11)**

To acquire knowledge and develop skills in dissection-oriented gross anatomy and its application and relevance to human physiology and disease.

**ANAT 7090 Select Topics In Anatomy (0-4)****ANAT 7120 Anatomy Research Sem I (1)**

To learn and understand recent advances in biomedical sciences; To develop critical thinking, literature search, and presentation skills.

**ANAT 7130 Anatomy Research Sem II (2)**

To learn and understand recent advances in biomedical sciences, To develop the skills required for evaluating research presentations and learn how to present professional work

**ANAT 7240 Advances in Anatomical Sci I (1)**

Students present one original research paper on a current topic in anatomical science research (cell, animal model, human)

**ANAT 7250 Advances in Anatomical Sci II (1)**

To develop the skills required for evaluating research, its application and relevance to human structure, physiology and disease. To understand how to develop new ideas for solving old and new clinical science questions

**ANAT 7350 Anatomical Techniques (3)**

To develop an understanding of the knowledge and skills involved in anatomical research and tissue preparation, as well as its application and relevance to human structure, physiology and disease

**ANAT 7360 Leadership in Healthcare (3)**

To confront the challenges facing modern health care , experts and organizations are calling for an increase in leadership capabilities. The Association of American Medical Colleges (AAMC) calls for a "focus on organizational leadership in a new era of health care." The mission statement of the Tulane University School of Medicine states "...to deliver the highest quality patient care and prepare the next generation of distinguished clinical and scientific leaders. To meet this need, this course, Leadership In Health Care, will engage with leadership topics to intentionally train students in the qualities consistently demonstrated by leaders when performing at their personal best with a focus on topics particularly crucial to healthcare.

**ANAT 7410 Grad Intro Functional Anatomy (1)**

This course provides an introduction to the physical principles of normal function and physiology in cells and tissues.

**ANAT 7420 Anatomy Seminar (3)**

This course provides an analysis of the physical principles of normal function and physiology in organ system

**ANAT 7510 Teaching Micro Anatomy 1 (1)**

To develop the skills required for evaluating and applying teaching skills in microscopic anatomy

**ANAT 7520 Teaching Microscopic Anat 2 (2)**

To develop the skills required for evaluating and applying teaching skills in microscopic anatomy

**ANAT 7560 Signal Transduction/Hormone Ac (2)**

This course provides in-depth knowledge of cell signaling.

**ANAT 7575 Graduate Neuroscience (6)**

To acquire knowledge and develop skills in dissection-oriented neuroanatomy and neuroscience, and its application and relevance to human physiology and clinical disease.

**ANAT 7600 Anatomy Research (1-9)****ANAT 7610 Teaching Techniques in Hlth Sc (2)**

To develop the skills required for non-interactive educational formats in health sciences education and the application of these skills in medical and health sciences education

**ANAT 7620 Interactive Teaching Technique (2)**

To develop the skills required for evaluating and applying interactive teaching formats in health sciences education and the application of these skills to medical and health sciences education

**ANAT 7630 Clinical Grand Rounds Surgery (1)**

To learn and understand current advances in clinical management of patients in surgery; To develop the skills required for evaluating patient and case presentations

**ANAT 7640 Clinical Grand Rounds Medicine (1)**

To learn and understand current advances in clinical management of patients in surgery; To develop the skills required for evaluating patient and case presentations

**ANAT 7750 Teaching Gross & Deve Anatomy (3)**

To develop the skills required for evaluating and applying teaching skills in dissection-based gross and developmental anatomy.

**ANAT 7760 Teaching Neuroanatomy (1)**

To develop the skills required for evaluating and applying teaching skills in dissection-based gross and developmental neuroanatomy.

**ANAT 7790 Adv Surgery based Anat Dissect (5)****ANAT 7810 Research Design & Methods 1 (3)**

Students will attend a series of lectures and practical sessions on the principles of centrifugation, tissue preparation for protein extractions, western blotting, RNA isolation and real time PCR, plating and cell culture techniques, and gel doc recording.

**ANAT 7820 Research Design & Methods 2 (3)**

Students will attend a series of lectures and practical sessions on the principles of tissue processing for microtomy, tissue microtomy for light microscopy, paraffin types and paraffin embedding of tissue, and histochemistry of tissue staining.

**ANAT 7830 Research Project Presentation (5)**

To develop the skills required for evaluating research, its application and relevance to human structure, physiology and disease.

**ANAT 7840 Research Thesis (6)**

The student will present research as a written record and present, discuss and defend the research before a thesis committee.

**ANAT 9980 Master's Research (0)**

Course may be repeated up to unlimited credit hours.

**Maximum Hours:** 99

**ANAT 9990 Dissertation Research (0)**

Course may be repeated up to unlimited credit hours.

**Maximum Hours:** 99
