ARCH - DESIGN (DESG)

DESG 1005 Fund. of Design & Making (4 Credit Hours)
Introduction to the fundamentals of iterative design process. Students will analyze design problems at three scales: human scale, building scale and urban scale and will synthesize creative solutions through two and three-dimensional medium in the intimate student learning environment.

DESG 1105 Intro Design/Creative Thinking (3 Credit Hours)

DESG 2305 Visual Comm & Advocacy (4 Credit Hours)
This course explores graphic communication as a tool for displaying and visualizing information in presentations and publications, through the use of various Adobe Creative Cloud programs such as Illustrator, In Design, and Adobe Spark. Students will cover topics such as data visualization, informational hierarchy, and how design principles impact the effectiveness of visual communication. Coursework will be largely project based with a dedicated lab time built into each class meeting.

DESG 2705 Design & Society (3 Credit Hours)
