

## MD - MICROBIOLOGY (MICR)

---

### **MICR 1111 Microbiology Summer Course (4)**

T1 & T2 summer courses may be required for students who need to remediate pre-clinical coursework. Contact your course director for more information. Course may be repeated up to unlimited credit hours.

**Maximum Hours:** 99

### **MICR 2000 Intro to Infectious Diseases (4)**

The IID course is designed to provide medical students with a broad-based foundation in the basic concepts of medical microbiology. Course material is presented in two distinct sections: 1) a 3-week introductory module touching upon basic principles in immunology, bacteriology, mycology, virology, and parasitology; 2) more in-depth sessions on specific pathogens within the context of their respective diseases taught throughout systems modules. Course may be repeated up to unlimited credit hours.

**Maximum Hours:** 99

### **MICR 5541 Immunology Research (1)**

5000-level research opportunities are available to T1 & T2 students who are interested in the specialty. Students must identify a faculty member with whom to conduct research. Students must have their research prospectus form approved in advance by the Senior Associate Dean of Admissions and Student Affairs. Course may be repeated up to unlimited credit hours.

**Maximum Hours:** 99

### **MICR 5542 Microbiology Research (1)**

5000-level research opportunities are available to T1 & T2 students who are interested in the specialty. Students must identify a faculty member with whom to conduct research. Students must have their research prospectus form approved in advance by the Senior Associate Dean of Admissions and Student Affairs. Course may be repeated up to unlimited credit hours.

**Maximum Hours:** 99
