Tulane Law School is known internationally for its admiralty and maritime law program. The city of New Orleans, located near the mouth of the Mississippi River and the Gulf of Mexico, is a significant maritime center, and the lower Mississippi River is one of the largest ports in the world. New Orleans itself has the second largest admiralty bar in the United States. As a result of the natural focus on maritime issues in New Orleans, Tulane Law School has become an important center for the study of admiralty and maritime law.
