

CITY, CULTURE, AND COMMUNITY, PHD

CCC Ph.D. Program awards degrees in three disciplines:

- Ph.D. in Social Work–City, Culture, and Community
- Ph.D. in Sociology–City, Culture, and Community
- Ph.D. in Urban Studies-City, Culture, and Community

CCC PhD students will be encouraged to work with faculty to develop their graduate educational plan that includes courses from across the campus and beyond. Some students will wish to seek academic appoints in traditional programs (e.g., Social Work, Sociology, Urban Studies) or non-traditional ones. Finally, students will also be encouraged to select dissertation topics that offer the potential for a cross-disciplinary approach.
