For information on **MBA degree** options, contact the Office of Graduate Admissions at the Freeman School:

Hours: Monday - Friday 8:30 a.m. - 5:00 p.m. (CST)

Phone: 504-865-5410

Email: abfadmit@tulane.edu

Future leaders in medicine must excel as clinicians as well as managers in the complex and rapidly evolving environment that now dominates healthcare. A growing number of medical students and physicians are complementing their medical education with MBA degrees. Holders of both degrees can operate their clinics more effectively, run a healthcare organization, manage a research project, or advocate for their patients and work to fix the healthcare system.

The School of Medicine partners with the internationally-recognized A. B. Freeman School of Business to offer medical students a joint MD/MBA program. This option allows students to earn both degrees more rapidly than when done separately. Two additional options are available for those who have already completed the medical degree.

## Requirements

### 5-Year Program for Current MD Students

Students in the five-year combined program save a year of training when compared to getting both degrees separately. Students apply to the MBA program during the fall of their third year of medical school. Accepted students spend the fourth year of the program in the Freeman School. The fifth year is divided between the School of Medicine in the fall and the Freeman School in the spring.

#### MBA Curriculum in 5-Year Program

<b>Spring Semester</b>		
Electives		15
<b>Total Credit Hours</b>		<b>61</b>

## MBA Options for Physicians

Physicians have two options to earn the MBA from the Freeman School. For working professionals, the Professional MBA (PMBA) Program (<https://catalog.tulane.edu/business/mba/business-professional-mba/>) requires 48 credit hours which can be completed by attending classes part-time on weekday evenings. The Executive MBA (EMBA) Program (<https://catalog.tulane.edu/business/mba/business-executive-mba/>) is an accelerated, alternate-weekend program for experienced professionals. The 48 credit-hour, lockstep curriculum can be completed in 17 months, primarily attending full-time day classes on Fridays and Saturdays.
