

ORGANIZATIONAL BEHAVIOR AND MANAGEMENT STUDIES, B.S.

Bachelor of Science in Organizational Behavior & Management Studies

The fully online Bachelor of Science in Organizational Behavior & Management Studies provides students with foundational knowledge of organizational behavior and management. Students will build their communication and analytical skills, along with their knowledge about organizational behavior and the fundamentals of business systems to address the economic, financial, legal, and ethical aspects of managing business entities successfully.

Organizational Behavior & Management Studies Mission Statement

The Bachelor of Science degree in Organizational Behavior & Management Studies (OBMS) provides adult learners with foundational knowledge about the different aspects of business organizations and how the systems within organizations work. Students will gain knowledge about the implications of organizations on attitudes and behaviors of individuals to better manage the relationships and transactions of organizations successfully, based on practical knowledge of applicable psychological, human resources, economic, financial, legal, and ethical concepts.

OBMS Learning Objectives

On completion of the Bachelor of Science degree in Organizational Behavior & Management Studies, graduates will have the knowledge and skills to:

1. Demonstrate knowledge about the fundamental business areas of the business organization, such as: accounting, finance, marketing, and human resources.
2. Analyze attitudes and behaviors within the organization at various levels of analysis (individual, team, organizational) and draw conclusions from the research.
3. Communicate clearly and persuasively, verbally and in writing.
4. Compare and contrast various organizational structures and analyze how organizational culture can have implications on organizational attitudes and behavior.
5. Describe how managers establish organizational goals, motivate employees, and lead through change.
6. Identify and apply the moral and ethical principles and social responsibilities that govern business entities, transactions, and managerial decisions.
