

SECONDARY EDUCATION (GRADES 6-12) COORDINATE MAJOR

Overview

The Secondary Education (grades 6-12) Coordinate major is 30 credits and offers students coursework and a path to become a secondary (grades 6-12) teacher in the State of Louisiana. Successful completion of all coursework and a two-semester residency is a requirement of any individual seeking teaching certification in the State of Louisiana. Students who choose not to pursue teacher certification may complete an applied research project in lieu of the residency.

The Secondary Education (grades 6-12) Coordinate Major can be completed concurrent with an undergraduate degree major at Tulane. Students must meet the requirements for the primary major while completing the required Secondary Education requirements, including a subject concentration:

- English
- Mathematics
- Social Studies
- Science (Physics, Chemistry, or Biology)
- Foreign Language (Spanish, French, German, Italian, or Latin)

Students work with an advisor in the department of their primary major and an advisor in the Education program to ensure all requirements in both programs are met. Students receive a B.A., B.S., or B.F.A. degree and must complete the core requirements of their respective Colleges.

Requirements

The secondary education (grades 6-12) coordinate major is 30 credits and open to all Tulane undergraduates. Please see the primary major's department page for major requirements.

Students who complete all requirements below earn a coordinate major in Secondary Education (grades 6-12) and, for those who participate in the clinical residency, become eligible to apply for the Secondary Education (grades 6-12) teaching license in Louisiana.
