

CYBERSECURITY CERTIFICATE (GRADUATE)

Overview

This Graduate Certificate is a 12-credit, four course program in which students will be exposed to cybersecurity technical concepts related to the design, monitoring, auditing, and maintenance of a resilient and redundant organizational infrastructure. Courses teach students how to secure cyber incident scenes, preserve evidence, and use forensic tools. All credits in this certificate may be applied toward the Master of Science Graduate Degree in Cyber Technology. Students will also have the opportunity to earn a relevant professional industry certification in this area during their studies.
