

HEALTH AND WELLNESS, B.A.

A Bachelor of Arts in Health & Wellness at Tulane School of Professional Advancement offers prospective students the first step toward a fulfilling career in health and fitness. Our health and wellness bachelor's degree program focuses on nutrition, personal fitness, health evaluation, risk behaviors, and healthy behavior changes.

The Bachelor of Arts in Health & Wellness degree is awarded following the successful completion of 120 credits, including 30 credits in the major. Upon successful completion of required prerequisite courses, students have the option of completing an internship in a healthcare setting.
