Materials Science and Engineering (MSE) Masters Program

The Tulane University Master of Science Degree in Materials Science and Engineering is an interdisciplinary degree that focuses on developing the deep understanding of materials modeling, processing, structure, properties, and performance required to solve complex technological problems. The program covers both “hard” and “soft” materials along with related devices. The MSE masters program provides preparation for professional practice in modern materials science for those technologists who wish to continue their education. Participating faculty are drawn from multiple materials-oriented departments in the School of Science and Engineering, including Chemistry, Chemical and Biomolecular Engineering, Biomedical Engineering, and Physics and Engineering Physics. This rigorous program trains graduate students to become leaders in industrial, government, and university settings. The program is flexible, allowing both full-time and part-time students, along with thesis (research component) and non-thesis (coursework only) tracks. Graduates are expected to fill the growing global demand for trained materials scientists and engineers in the twenty-first century. Graduates typically find work in a number of fields, including biotechnology and health care, defense, information technologies, manufacturing, aerospace, chemical processing, and energy.

Requirements

Required and Elective Coursework

Applicants may choose one of two paths: 30 credits of coursework OR 24 credits of coursework and a 6-credit written research thesis supervised by MSE faculty at Tulane (https://tulane.app.box.com/s/wny7qqq75c0o08pukm1224byk963szq/).

The required coursework for the Tulane MSE Master's degree consists of four courses.

<table>
<thead>
<tr>

<td>3</td>
</tr>
</tbody>
</table>

Other SSE courses, including ones designated as BMEN, CENG, CHEM, COSC, MATH, and PHYS, may be suitable electives for MSE Master’s students, with approval from the Advisory Committee.

**Admission**

Applicants from all undergraduate science and engineering majors are eligible to apply. For more information, go to our admissions page here: [https://sse.tulane.edu/pep/academics/graduate/mse-masters-program](https://sse.tulane.edu/pep/academics/graduate/mse-masters-program/).

**Tuition**

Non-4+1 students will pay the per-credit rate for Science and Engineering

For Tuition Rates » [https://studentaccounts.tulane.edu/tuition-and-fees/](https://studentaccounts.tulane.edu/tuition-and-fees/)

**GPA Requirement**

A GPA of 3.0 is required for the degree to be conferred. Courses receiving less than B- will contribute no credit toward the Master’s degree requirements.

**Apply**

Please use the Online Application System [https://applygrad.tulane.edu/apply/](https://applygrad.tulane.edu/apply/) to apply for the program. The application deadlines are May 15th for Fall admission and November 15th for Spring admission.

**Contacts**

Please contact Prof. Doug Chrisey, or any member of the MSE Master’s Program Advisory Committee, if you have questions about the program.

- Prof. Doug Chrisey (dchrisey@tulane.edu), Physics and Engineering Physics
- Prof. Matthew Escarra (escarra@tulane.edu), Physics and Engineering Physics
- Prof. Vijay John (vj@tulane.edu), Chemical and Biomolecular Engineering
- Prof. Michael Moore (mooremj@tulane.edu), Biomedical Engineering
- Prof. Noshir Pesika (npesika@tulane.edu), Chemical and Biomolecular Engineering
- Prof. Russell Schmehl (russ@tulane.edu), Chemistry

**Materials Science and Engineering (MSE) Masters 4+1 Program**

In addition to the above requirements:

- Tulane 4+1 students must have a minimum grade of B in CENG/ENGP 3120, and at least one of their letters of recommendation must be from a Tulane SSE faculty member.
- 4+1 students will normally indicate their intention to pursue the program before the end of the third year at Tulane and will complete between 6 and 12 credits of coursework towards the MS degree by the end of the fourth year.
- Six of these credits can count simultaneously towards the 120 credits required for the Bachelor’s degree.
- GRE and TOEFL scores are not required for Tulane 4+1 students.
**Tuition**

Students in the Tulane 4+1 programs pay only 35% of the regular graduate tuition for the 5th year.

For Tuition Rates » (https://studentaccounts.tulane.edu/tuition-and-fees/)

**GPA Requirement**

A GPA of 3.0 is required at graduation. Courses receiving less than B- will contribute no credit toward the Master's 4+1 degree requirements.

**Apply**

Please use the Online Application System (https://applygrad.tulane.edu/apply/) to apply for the program. The application deadlines are May 15th for Fall admission and November 15th for Spring admission.

**Contacts**

Please contact Prof. Doug Chrisey, or any member of the MSE 4+1 Master's Program Advisory Committee, if you have questions about the program.
