

HEALTH PSYCHOLOGY CERTIFICATE (GRADUATE)

Overview

Students enrolled in the Psychological Science Ph.D. program may elect to focus on health psychology. Students complete all the usual requirements of the Psychological Science Ph.D. (<https://sse-dev.tulane.edu/psyc/academics/graduate/phd/programs-study/#psychsci>), with 15 of the usual 29 elective credits being in health psychology (as below). Psychology Ph.D. students completing this sequence will earn a graduate certificate in Health Psychology when their Ph.D. is awarded.
